

GUIDELINES FOR HANDLING INCIDENTS

When incidents/accidents occur in the workplace, follow these guidelines

1. **Prioritize the care of clients:** Ensure the safety and well-being of individuals involved in the incident.
2. **Provide first aid and medical care:** Refer the individual(s) to appropriate health professionals to address any injuries or medical needs promptly.
3. **Secure the scene:** Take steps to prevent further harm or damage to others and to facility equipment.
4. **Notify relevant personnel:** Inform supervisors, management of the facility, and other necessary parties.
5. **Accurate and timely reporting:** Report all incidents as soon as they occur to a superior officer or administrator.
6. **Provide detailed information:** Include the date, time, location, individuals involved, and a description of what happened.
7. **Document actions taken:** Record any interventions, treatments, or changes made in response to the incident.
8. **Maintain confidentiality:** Protect the privacy of those involved in the said incident unless required by management
